

By choosing renewable energy
to power your home you're saving

7000 LBS
Of CO₂

That's like planting

165 TREES

Every year

Where we go from here:

1. Receive an email with your contract and T&Cs, as well as a text message with a link to view a digital copy online.
2. Receive a courtesy follow-up call from MPower to ensure the quality of sale and your interaction with our sales agent.
3. Receive a postcard or mail from your utility company with the effective start date of your new renewable energy.
4. Receive a single bill from your regular utility company reflecting MPower Energy charges for renewable energy.

Would you like to win
FREE ELECTRICITY
for one month?

Winning is simple...
just "like" our Facebook page:
@mpowerenergyllc

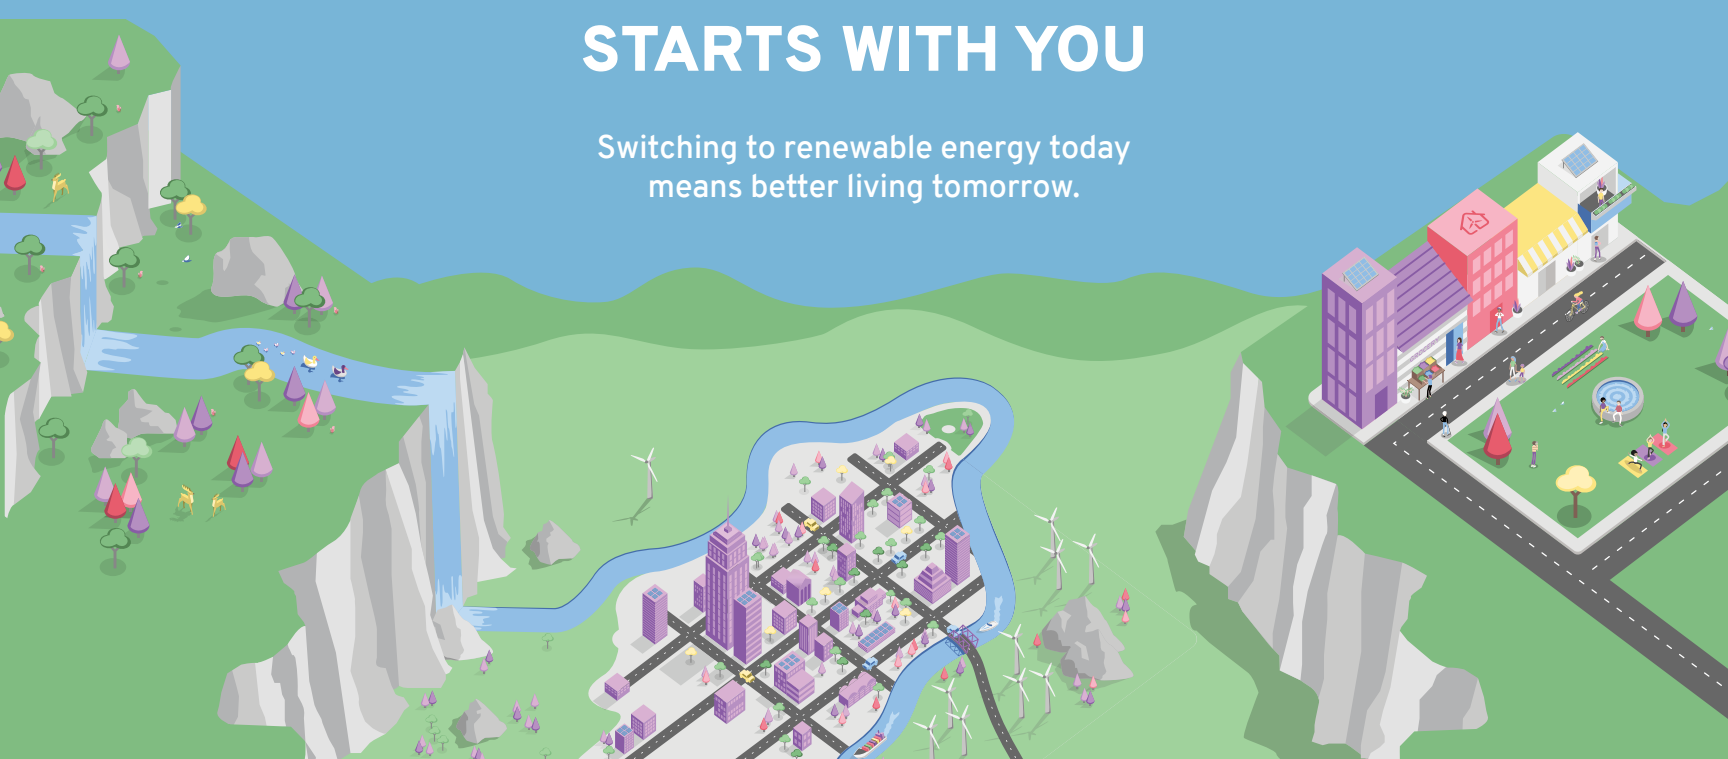

Encourage others to switch to renewable energy by sharing about going green on your facebook page (use the hashtag: #mpowercares and tag our page).

*Free electric applies to the supply portion of the bill, not the delivery.

**REAL CHANGE
STARTS WITH YOU**

Switching to renewable energy today
means better living tomorrow.

THE IMPACT OF RENEWABLE ENERGY

Relying on traditional, non-renewable energy sources can result in harmful emissions that negatively impact our well-being – and the environment. But, making the switch to renewable energy can counteract these negative effects, for you and your family.

At MPower Energy, our mission is to educate communities and provide 100% renewable energy to every home in the United States, one door at a time, with premium service and reliable, price-protected rates.

Zero Carbon Emissions

Traditional energy resources, such as coal and oil, produce heavy carbon emissions that cause acid rain, climate change, and water/air pollution. Renewable energy doesn't!

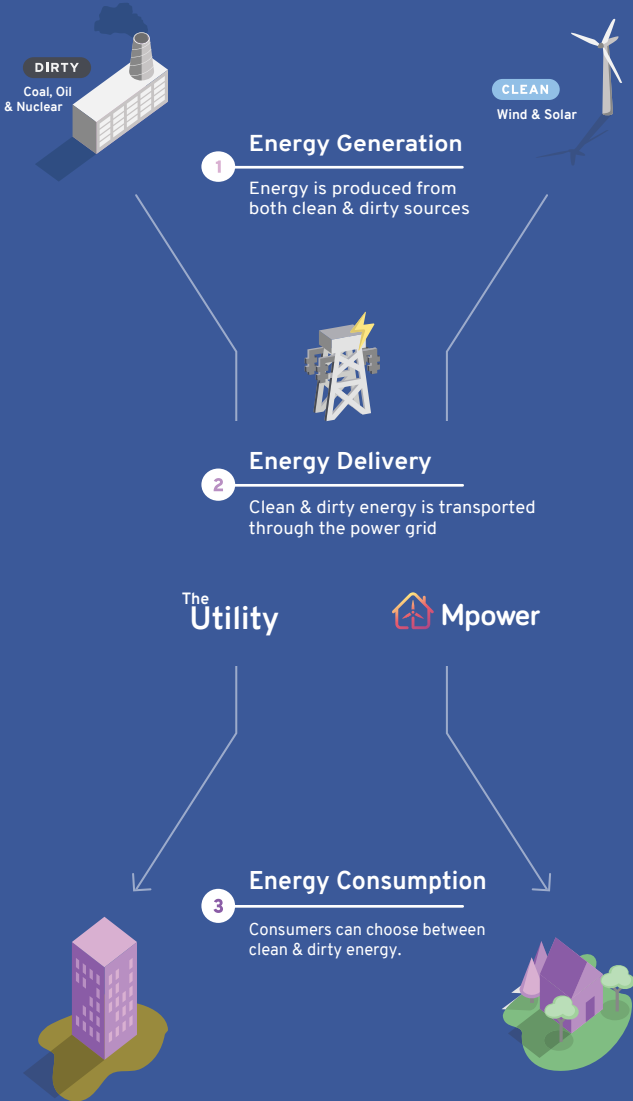

Health & Environmental Quality

In contrast to fossil fuels, renewable energy does not produce the same harmful public health concerns, such as heart attacks and high cancer rates.

Boosts the Economy

The renewable energy sector creates jobs 12x faster than the rest of the U.S. economy. MPower contributes to this by hiring locally and donating proceeds to the communities we serve.

Clean or dirty energy? Its your choice!

A Simple Change Can Save the World

Switching to renewable energy is super easy; simply let us know that you want to go renewable, and we'll handle the rest.

- Seamless Delivery Transition
- No Installation or Equipment Costs
- Only One Bill from Your Utility Company
- Utility Company Still Reads the Meter
- Utility Company Handles All Emergencies or Outages

No More Surprises, Guaranteed

As seasons change so do energy prices. Mpower's Price Protection Plan gives you peace of mind by removing rate fluctuations associated with seasonal swings in energy rates. Renewable energy from MPower allows you to lock in a reliable fixed rate for your residential energy needs and you'll never be surprised by a bill again!

If for any reason, you decide that renewable energy isn't for you, you can cancel your contract at any time, with no penalties.
